

Bledsoe Ultimate Ankle Brace

**Bledsoe
Brace
Systems™**

■ **Stabilization:** Inversion and eversion control are maximized without restricting ankle plantar-flexion or dorsi-flexion.

■ **Anchors to the shoe:** Allows the shoe to control the foot, while the remainder of the brace controls the lower leg. It can be quickly removed and changed to another shoe.

■ **Lightweight and comfortable:** Lightweight, ultra-strong construction is adjustable for width and position in the shoe.

■ **Long life:** The entire brace can be disassembled and the wear components changed for a long life.

The Bledsoe Ultimate Ankle Brace is a functional ankle brace unlike any ankle brace or support on the market. Made of aerospace super alloy aluminum, the Ultimate Ankle Brace features exceptional control for chronic ankle instabilities or early rehabilitation of acute ankle sprains where ankle plantar-flexion and dorsi-flexion is permissible. The ULTIMATE in control, the ULTIMATE in comfort, the ULTIMATE in strength and lightweight.

**A functional
ankle brace,
not just an
ankle support**

Bledsoe Ultimate Ankle Brace

Restrictions on use

This device is offered for sale by or on the order of a physician or other qualified medical professional. This device is not intended for reuse on a second patient. This device is generally not intended for patients in excess of 250 lbs. (114 kg). This device is not intended to prevent injuries or reduce or eliminate the risk of injury.

Warning

Do not leave this device in the trunk of a car on a hot day or in any place where the temperatures may exceed 150°F (65°C) for any extended period of time. If any additional pain or symptoms occur while using this device, discontinue use and seek medical attention.

Indications

Indicated to increase support in the inversion and eversion control of chronically unstable ankles, and for increased inversion and eversion control for grade 1 and 2 acutely sprained ankles where dorsi-flexion and plantar-flexion is permissible and inflammation is under control.

Contraindications

Contraindicated for immediate application to acute grade 3 ankle sprains where plantar-flexion and dorsi-flexion is not desirable or permissible. Application is appropriate after inflammation has been controlled and plantar-flexion and dorsi-flexion is again possible starting in the early weight bearing phase of rehabilitation.

Bledsoe Ultimate Ankle Brace vs. other brands

Bledsoe Ultimate Ankle Brace	Others
Bledsoe Brace Systems sells the only true functional ankle brace that attaches to the shoe for total ankle control.	There is nothing on the market that compares to the Bledsoe Ultimate Ankle Brace.

Ordering Information Ultimate Ankle Brace

Order Size	Left	Right	
2	AS130252	AS230252	Size must be determined from the Measuring Card. (Order separately). Note: A cutout Measuring Card is included with brace instructions. Semi-Custom sizes can also be calculated with the Measuring Card. Note: If Measuring Card is not available, measure height of both ankle bones from the floor to the point which protrudes the most on each side. When placing an order state shoe size, left or right, and the height of both ankle bones to the nearest 1/8 inch.
3	AS130353	AS230353
